Over the past few years, the number of different health insurance programs has increased at a significant rate. Even within one insurance company, there may be several programs with varying benefits and requirements. There is no way we can possibly know, or keep up to date with each insurance company's policies, programs, and provisions.

Some programs require a specific facility be used for your radiology and laboratory tests.

Some programs require pre-authorizations and notification of hospital and ER visits.

It is your responsibility to know:

1. Whether this office is participating with your insurance company and if they will cover physicals, immunizations, surgeries, etc.
2. To advise this office of your insurance requirements in advance, each and every time we provide a service. We will do our very best to comply with any responsible requirements your insurance company may have.

Please understand that if we have not been advised in advance of your insurance requirements or conditions and we provide a service or use a laboratory that is outside your insurance, you will be responsible for the appropriate fees. In addition, there may be times where we may not be able to obtain a consultant or laboratory that participates with your insurance. It is up to you to work this out with your insurance company.

Unless you carefully follow your insurance company's regulations, they may decline all or part of your claim. Your insurance carrier should have provided you with a phone number to use if you have any questions about your coverage.

I acknowledge receipt of this information.
